

50-43 MISSION 1

TYPE: Instrument and Flame-out Pattern Practice

DURATION: Three Hours

1. Purpose: To provide the pilot additional instrument and flame-out practice.
2. Requirements:
 - a. Take off, drop pogos and climb to 20,000 feet.
 - b. Make jet penetration on local beacon.
 - c. Proceed to GCA pickup point and accomplish 4 GCA's.
 - (1) 2 Precision Approaches
 - (2) 1 ASR Approach
 - (3) 1 Gyro Out Approach
 - d. Accomplish 4 (four) simulated flame-out patterns.
 - e. Accomplish three (3) landings, two (2) of which will be touch and go's or full stops with pogos. The drag chute will be used on final landing if wind conditions permit.
